

The Car Song  
(Zenith)

I used to be a car

Detroit factory Chevrolet  
New parts and body work  
Made me what I am today

Drive

And I can go for miles  
With my new fuel injector  
I-75 unwinds  
I go either direction

Drive

You'd like to look under my hood  
You'd like to fix me up  
But I escape I escape  
I learned to

Drive
