Dear

Thank you for your response to our organizations recent advertisement. Your reply was very welcome and was sincerely appreciated.

The purpose of our organization is to bring transvestites and their friends together socially with others and to assist one another in accepting and enjoying our femininity.

We are a social organization, not a political one; however where possible we will act in good taste to promote a better understanding of transvestism by other people and business concerns.

We advertise regularly, to help stimulate an interest in our activities by those involved with cross-dressing. Every month, we get together socially in a public place for an evening out and to meet any newcomers to our group.

You may join us on the first Thursday of every month if you desire to join our club. The location will change from time to time for security reasons and to sustain an interest in our activities. You will be kept informed if we have your address and you participate by contributing \$2.00 per month to subsidize our operating cost.

For more information write the above address, enclosing a self addressed stamped business size envelope.

Sincerely,

Ellen
Secretary N.W.G.A.

P.S. We hope this will be the beginning of a long friendship.
