Dear Dee:

Enclosed you will find a survey addressing the health care provided to gay, lesbian, bisexual and transgender inmates. By receiving this letter and survey, we are by no means defining your sexuality. Jackie Walker, AIDS Information Coordinator for the National Prison Project provided me with your name and address suggesting you would be interested in responding to the survey. Your address as well as responses to the enclosed survey will remain completely confidential.

The purpose of the enclosed survey is to explore the health care delivered to gay, lesbian, bisexual, and transgender inmates. The survey is not designed to imply that the health care is better or worse for this population. It is designed to gather information on your impression of similarities and differences in health care delivery in corrections.

Thank you in advance for your participation in this endeavor.

Sincerely,

**Damon K. Marquis**  
**Director of Education**
