PHI PI EPSILON MEMBERSHIP DIRECTORY
SUPPLEMENT NO. 2

During the last 3 months we have had a number of new sisters join us plus a few that moved from one state to another. Thus is it time for a new Directory Supplement.

I hope that those of you are part of a group will make a point of contacting those sisters near enough to take part in group activities and make arrangements for one of the group to interview them in order to add yet another member to your group.

At the same time, those of you living in areas where there are no chapters should make a point of contacting those listed in the original Directory, in Supplement No. 1, as well as this Supplement, who are near enough together to consider forming a small group. That is the purpose of giving you the home town area of each sister in the hopes that new groups can be formed out of those living within traveling distance of some center.

There are still many former members who have not returned to the fold: some have found satisfaction elsewhere, others have come to accept themselves to such a point that they no longer feel the need of membership in an organization. And some, of course, have not been able to adapt themselves to the new arrangements. Should you be in contact with any such, please urge them to rejoin. Not only "in unity there is strength" but "the more the merrier". However, Phi Pi Epsilon remains true to its original purposes, and we are not anxious to have any one apply or reapply for membership that does not subscribe to and support those purposes. I refer to the fact that FPE is for heterosexual cross dressers exclusively. We don't put others down but let them do their own thing with others of the same persuasion. FPE serves the needs of those for whom security is an important factor. There are other

organizations who accept all comers and for whom security is not much of a concern. Let the more free wheeling individuals seek these organizations out. At the same time there are those who belong both to FPE and to other groups. I must remind you that those who do, that that is their privelege, but they joined FPE knowing it's rules and purposes and it is expected that they will handle their relationships within FPE accordingly.
