

Memorandum

Date : July 16, 1996

To : R. HOREL,
Chief Deputy Warden
Outpatient Psychiatry Program

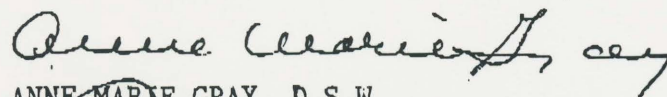

VIA: CAROLINE, HERNDON, PH.D
Clinical Program Manager

From : California Medical Facility, Vacaville 95696-2000

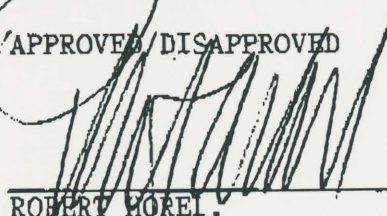

Subject : Transgender Group: Time for Termination

As we discussed this morning, Mr. Cozza is requesting one more session, to inform his group members that there is a policy which prohibits them from attending his groups, if they are housed on Unit IV. As a clinician, Mr. Cozza presented good reason to have one more session. He also said that he would preserve the boundaries between clinician and I/M patients, by refraining from saying which might be construed as provocative by the members of his groups. He stated that he conducts two groups, one on Monday, and one on Friday; he said he estimates the number of those attending from Unit IV to be three.

Given that Mr. Cozza has given his word to send no ducats after his last session with Unit IV's inmates, I recommend that he be allowed to send ducats for one last session, for each group, and to inform the members of the change in policy.

ANNE MARIE GRAY, D.S.W.
Supervising Psychiatric Social Worker

APPROVED / DISAPPROVED

ROBERT HOREL,
Chief Deputy Warden
